Thanks Darlene.

There were no further changes to this QFR. It's with OCIR now.

Thanks again for the quick turnaround.

Hi Darlene. Below is OPPT's mark-up of Markey 1b. Note that the incoming response from Sven was from Michal's QFRs. Let me know whether OPP has any further edits before I send to Michal and Rick. Thanks.

Question: Recent testing documented the presence of per- and polyfluoroalkyl substances (PFAS) in a pesticide product sprayed across Massachusetts. Follow-up tests by the Environmental Protection Agency (EPA) found that at least nine PFAS chemicals were leaching from the PFAS-coated plastic containers in which the pesticide product was stored. This disturbing incident highlights serious concerns about the ubiquity of PFAS and their prevalence throughout our supply chains.

- b. How is the EPA working to phase out the nonessential use of PFAS? [OCSPP]

Note that I assigned 1b to OPPT and am waiting for their inputs due to the mix up. On that one they thought OPP might want to review once they review – is that the case?

Darlene,

I just want to double check and confirm that OPP is fine with all of these responses and has no edits, including 1b, 2, and the 3<sup>rd</sup> one (number 55).

Thanks,

Heads up that SEPW budget hearing QFRs are in. There are about 60 total and only 2.5 for OCSPP. **OCIR seeks OCSPP's quick-turnaround help in reviewing draft responses to the SEPW QFRs by 10 am this Thurs, June 3.**

OCSPP's questions are attached; below is a quick Table of Contents. We'll defer to you and the OCSPP team on the best way to proceed, recognizing that there are ongoing QFR processes underway for a number of hearings.

I drafted initial responses using existing sources including Michal's QFRs (for PFAS and Allied) and recent letters (for Oxitec). The guidance we received is to be brief yet responsive.

Please let me know if you have any questions and thanks for your help on this quick turnaround request. Best,  
Sven
